Virtual 3D Booths Exhibition

Overview

XPOmania is a B2B solution for event organizers (EO) or individual companies to create and host online exhibitions.

Visitors and participants can experience the immersive 3D views of the exhibitions and interact directly with exhibitors in real-time on multi-platform.

Benefit

Fast to setup

By using pre-made templates and 3D booths, as well as a solid technical support team, the setup process is faster.

Allow continuity after event

Extending the duration of the event is relatively easy and fast.

Cost effective

When compared to physical exhibitions, virtual exhibitions require a relatively economical cost.

Complement existing physical exhibition

The virtual exhibition version can be complementary to maximize good impact.

Key features

Rich Multimedia Experience

Using combination of rich multimedia elements like video, audio and interactive 3D. You can significantly enhanced the user experience when visiting your online booth.

Seamlessly Link to Online Meeting

Interested to find out more about the product and services? No problem, you are just one click away to talk to the exhibit owners. No plugin or software installations.

Zoom Webinar Integration

Combining webinars and exhibitions is now easier. XPOmania provides integration with Zoom conferencing services like meeting and webinar
